

# Educating Our Future River Watchers

Many kids do not know where our water comes from. The Valley-Edinburg River Watch team strives to teach the younger generation the uniqueness of the Park River Watershed's health, recreation, and wildlife. Interactive classroom activities were used to give a fun and educational experience.

## Our goal is that participants will:

- Learn about the geography of the Park River Watershed
- Learn about the water cycle
- Understand basic water terminology
- Understand the importance of keeping our water clean

## How we will achieve our goal:

- Show examples of clean and dirty river water
- Water terminology matching game
- Gym activity on the water cycle
- Coloring sheet on the Park River Watershed

## Pre and Post Test Results:
