WAO River Watch

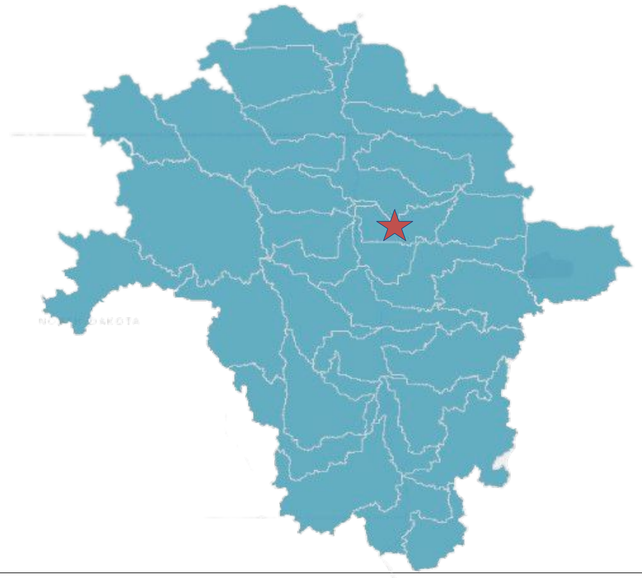
Warren Alvarado Oslo High School , Middle-Snake-Tamarac Rivers, 2024

Introduction

River Watch at WAO started in the fall of 1999. Since then, WAO River Watch hopes to continue on river testing and attending River Watch events including the fall kickoff and the River Watch Forum February 28th. Because of the dry fall we have not gotten out to do testing in this current school year yet but hope to go out this Spring.

River Watch Advisor: Kevin Johnson

Current Members: Sebastian Aure, Austin Baird, Caden Benson, Audrey Bienek, Maxwell Carlson, Brady Jadeke, Isabel Jones, Reegan Mortimer, Ava Oberg, Kaden Pierce, Chandler Stroble, and Kadence Wimpfheimer



River Watch Calendar

The River Watch Calendar contains photos on every monthly cover and dates of Warren Community events including school and community.

Some of the events posted are....

- Carnivals
- Testing Dates
- Water Festival

Podcast

For our podcast we interviewed Danny Omdahl from the Middle-Snake-Tamarac Rivers Watershed District. Our topic was on the flood of 1997. We chose this because it interested us and had a big impact on our town. We learned a lot of things from him and are grateful for this opportunity!

Plans for 2024

Our plans for 2024 and the future are...

- Continue testing and providing information about our rivers
- Attend fall kickoff in 2024
- Compete and attend River Watch Forum on February 28th
- Continue learning and exploring the outdoors

Support and funding provided by:

Support for the **River Watch Program** is provided by the Red River Watershed Management Board, Minnesota Clean Water Fund, Minnesota Pollution Control Agency, Red River Joint Water Resource District, North Dakota Department of Environmental Quality.
